Dear [Partner Name],

The UK Walking Summit comes to Liverpool for the first time on Wednesday 25 March 2026. Now in its tenth year, the event by Living Streets brings together leaders, planners and campaigners who are working to improve streets for people walking and wheeling.

This year's theme, The Future of Streets: Putting Pedestrians First, will explore how the changes we make to our streets today will be with us for decades.

The event will shine a light on emerging technologies that are creating new ways for people to move around towns and cities and showcase work happening in the region through a series of 'walkshops'.

Speakers include Lilian Greenwood MP, Kirsty McCaskill-Baxter (Active Travel England), Adam Tranter (Fusion Media), Simon O'Brien (Liverpool City Region) and Agustina Martire (Queen's University Belfast). You can see the programme and book your ticket [here](#).

Liverpool City Region will showcase work that puts people that walk and wheel at the heart of change. We'll also hear from trailblazers across the UK who are looking to make walking and wheeling safer and more accessible as our streets evolve.

Living Streets donating members are entitled to a half price standard ticket and a free place for the online Summit series later in the year - [join now to take advantage of this offer](#).

We hope to see you there in March – please spread the word using the suggested social media posts.

“At the UK Walking Summit in Liverpool, I am looking forward to speaking and hearing from the people shaping the future of our streets, and Liverpool is the perfect place to showcase how active travel can transform towns and cities.”

– **Lilian Greenwood MP, Parliamentary Under-Secretary of State for Local Transport**
